

Lithosphere

ISSN 1941-8264 | VOLUME 9 | NUMBER 2 | APRIL 2017

Lithosphere, a peer-reviewed journal launched in 2009, focuses on processes that affect the crust, upper mantle, landscapes, and/or sedimentary systems at all spatial and temporal scales. The journal particularly welcomes, but is not limited to, submissions that document the feedback relationships among geomorphic, lithospheric, and upper mantle processes.
